PROJECT EXPERIENCE

College Website (Front-End)

Role: Front-End Developer

- Developed a responsive and scalable frontend website that handled multiple users concurrently.
- Developed a modern UI for user friendliness and increasing department engagement.

LevelUp

[Ongoing]

Stack: Next JS 15 (TypeScript), MongoDB, Express, Vercel, Render, Git

- A SaaS application tailored for people who have a tough time keeping discipline. This application helps users track their personal progress on goals.
- Uses frontend strategies such as lazy loading to optimize user experience and develop a modern UI.
- Used Node.js to develop a type-safety enabled and clean code backend, smoothly integrating various changes using version control and resolving conflicts with collaborators.

ACHIEVEMENTS

Project X Hackathon – 1st Place

Mohammed Sakthak A J College of Engineering

Won a college-level hackathon by developing a unique solution under pressure with strong teamwork and innovation.
